

High Precision Pressure Gauge

Description: For precision pressure measurement, with zero adjustable pointer, accuracy class.

Size: 6"(150mm)

Pressure range: -0.1~250 Mpa

Socket: Brass lower mount

Connection thread: 1/2" NPT, M20*1.5 or customized threads

Tube: Brass or 316 stainless steel

Case: Black steel or stainless steel

Bezel: Screwed steel or stainless steel

Window (lens): Glass lens

Dial plate: Mirror dial, single and dual scale (psi, kpa, mpa, bar, kg/cm²)

Accuracy: +/-0.25%, +/-0.4%

Ambient temperature: 5~65°C
